

CommComm Conf Call notes

6/30/06

Green Tag Update - Web checking - Appreciation of Cyra

1. Participants

Lisa Riener

Carl Bowman

Barry M. Aarons

Trisha Frank

Judy Rocchio

Kathy Van Dame

Sandra Sac-Parker

Brad Bissey

Karen Deike

2. Update on Green Tags:

Judy reports 12 vendors checked against criteria, only 2 met all, Native Energy & Green Tags USA (BEF). Some discussion around adding a 3rd or 4th vendor that doesn't meet the tribal land projects criterion. We (Trish & Judy?) will double check with 2 other top candidates for tribal lands projects and consider listing them anyway. Karen cautions our process must be consistent so we can explain to vendors not listed why they were excluded.

Pat Cummins has expressed support for project and placed on WRAP board agenda, Lisa will present as informational item at Sept mtg. Possibility of .ppt support. (Notetakers comment - a .ppt would be posted to the website, would be useful outreach)

Judy will draft summary, circulate it and schedule conf call to finalize it.

3. Cyra Cain (greatly missed) is no longer able to do the web checking. Lee Alter has offered to undertake this role. Lisa reports chain of action in web checking.

Discussion: what is the CommComm's role related to QA of website postings - CommComm should retain some editorial oversight. It is always good to have more sets of eyes to review. Karen offers to backup Kathy in her absence. Brad to copy both all communications regarding postings, Karen & Kathy will coordinate shift changes. Group agrees to this arrangement.

4. Carl will adjust the Communications Manual to reflect these changes.

5. Barry will reconfirm Marvin Martin's status as state co-chair, contact info to be added to our roster.

6. Kathy will email Cyra that she has been declared irreplaceable.

7. Brad notes that CC Organizational Chart on the web needs updated. Volunteer?

8. Judy has done fabulous arranging calls, please continue.
