

WRAP Fire Emission Joint Forum

September 24-25, 2003

Hotel Vintage Plaza, Portland Oregon

**Logistics**

Hotel Vintage Plaza <<http://www.vintageplaza.com>>  
422 SW Broadway  
Portland, OR  
Phone: (503) 228-1212 or (800) 243-0555

Sleeping Room Block for Sept 23 and 24  
Room rate \$91.00 - please reference "WRAP" in order to receive this contracted rate. **Rooms will be held until Sept. 2.**

Meeting Space:

Sept 24 (8am-5pm) Burgandy A & B meeting room  
Sept 25 (8am-5pm) Burgandy A & B meeting room

The Hotel Vintage Plaza does not have their own shuttle service. You can take light rail from the Portland airport and exit at Pioneer Square (this is right in front of Nordstrom's). From this point you would go North on Broadway for 2 blocks and the hotel is on the right hand side.

**Wednesday September 24, 2003**

8:30 Introductions

8:45 FEJF Membership Changes/Vacancies (Lahm)

9:00 WRAP Issues/Activities (Moore/Alter)

9:30 FEJF Project Status (Lahm/Klein)

- RMC Model Sensitivity Runs
- Wildland Alternatives to Burning
- PH I 2002 EI – Inter-RPO National Wildfire Emission Inventory RFP
- Spring 04 Fire Technical Conference (review, pre-work, EPA discussions)

11:00 Emission Reduction Techniques Project Presentation – Ken Meardon /MACTEC

12:00 – 1:00 Lunch

1:00 Blue Sky/RAINS, - Dr. Sue Ferguson (tentative)

1:00 03 – 04 FEJF Workplan (All)                    **DISTINGUISH BETWEEN 03 AND 04 AND LOGICAL SPLIT FOR EMISSIONS AND NONEMISSIONS**

- Project Management and Participation Needs and Expectations
- Projects deferred as a result of August 2003 Planning Team Meeting
- Individual Project Reviews (not addressed above) and Task Leader/Task Team formation

### **Emission Inventory and Modeling**

- 2002 Emission Inventory Activities
  - PH I 2002 EI Rx and WFU on WL, RL, AG
  - PH I 2002 Inter RPO Wildfire EI initial apportionment for PH I Strategic Plan
  - PH II 2002 EI WF Rx and WFU on WL, RL, AG
- Develop Contract for Regional Modeling Center support
- Establish de minimus levels for fire data tracking and reporting
- Develop and manage contract to refine 2018/2064 -- natural and anthropogenic Split for 308/309

### **Data Management**

- Develop Bridge for linking Fire Tracking System into WRAP emission data management system
- Develop and manage contract to evaluate Fire Emissions Estimation System

### **Technical Guidance and Policy**

- Develop Technical Guidance for Emission Reduction Techniques
- Manage Contract on Application of Fire Emission Trading Model
- Develop Wrap Policy to coordinate ESMP Implementation including regional coordination meeting
- Develop Feasibility Criteria and Technical Guidance for Policy for Categorizing Fire Emissions
- Develop Guidance for Fire Emissions/Categorization - refine differences between restoration and maintenance
- Develop Guidance for FTS and AEG (include default strategy) and Policy/Technical Options for AEG and FTS
- Develop Technical Guidance on Natural/Anthropogenic Apportionment including support work for DRI Cause of Haze Assessment and TOC source apportionment
- Develop and manage contract to investigate and summarize smoke management techniques for fire sources that reduce regional haze impacts on Class I areas

### **Thursday September 25, 2003**

8:00 – 3:00 Continuation of project discussions, potential breakouts

12:00 – 1:00 Lunch

3:00 Meeting wrap-up and next meeting

3:30 Adjourn
