

FEJF Workplan Discussion

June 15-16, 2004

FEJF Meeting

Portland, Oregon

Overview

The FEJF identifies planned activities and anticipated expenditures to be incorporated into the WRAP Workplan.

The WRAP Workplan serves to allocate grant money from EPA to each Committee, Forum or Workgroup.

This presentation provides an overview of the FEJF Workplan efforts.

**Review 2004
Workplan**

**Preliminary
2005 Workplan**

**Long Range
06/07 Tasks**

2004 Workplan

Code	Project Title	Funding
“A”	Evaluate Fire Emissions Estimation Systems	14,578
“B”	Model Assessment / Sensitivity Runs	50,000
“C-I”	2002 Inventory – Phase I	278,754
“C-II”	2002 Inventory – Phase II	
“D”	Modeling to Assess/Establish De Minimus Levels	100,000
“E”	Fire Emissions/Categorization Guidance – diff. Between restoration & maintenance	40,000
“F”	Guidance for implementation of FTS and AEG Policies, including policy/tech options	50,000
FF1	Fire Emissions Trading Model	20,000
FF2	Feasibility Criteria/Technical Guidance for Policy for Categorizing Fire Emissions	20,000

Code	Project Title	Funding
FF3	Guidance on Nat/Anth Apportionment, including support for AMRF & TOC Projects	50,000
FF4	Support for Regional Modeling Center analysis of fire emissions scenarios	25,000
FF5	Bridge for Fire Tracking System into EDMS	10,000
FF6	Refine 2018 fire emission projections, include AK & HI, plus Nat/Anth split	130,000
FF7	2002 National Wildfire EI (inter-RPO project)	100,000
FF8	Technical Guidance on Use of Emission Reduction Techniques	79,918
FF9	Regional Coordination of Smoke Management Programs, including workshop	25,000
FF10	Co-Sponsor National Fire Emissions Technical Conference	60,000
FF11	Smoke Mgt Techniques to reduce regional haze impacts on Class I areas	10,000
Expended or Obligated \$385,639 ---- Remaining \$677,611		

Preliminary 2005 Workplan

Code	Project Title	Funding
“B”	Model Assessment / Sensitivity Runs	42,650
“C-I” F1	2002 Inventory – Phase I Fire Emissions Trading Model	157,464
“C-II”	2002 Inventory – Phase II	136,290
“D”	Sensitivity Runs Phase II: Regional & Mesoscale	100,000
“E”	Fire Emissions/Categorization Guidance – diff. Between restoration & maintenance	40,000
FF5 “A”	Bridge for Fire Tracking System into EDMS <u>AND</u> Evaluate Fire Emissions Estimation Systems	24,578
FF8 “F”	Technical Guidance on Use of Emission Reduction Techniques <u>AND</u> Guidance for implementation of FTS and AEG Policies, including policy/tech options	75,000

Preliminary 2005 Workplan

Code	Project Title	Funding
FF4	Support for Regional Modeling Center analysis of fire emissions scenarios	25,000
FF6 FF3	Refine 2018 fire emission projections, include AK & HI, plus Nat/Anth split <u>AND</u> Guidance on Nat/Anth Apportionment, including support for AMRF & TOC Projects	180,000
FF7	2002 National Wildfire EI (inter-RPO project)	100,000
FF9	Regional Coordination of Smoke Management Programs, including workshop	25,000
FF10	Co-Sponsor National Fire Emissions Technical Conference	35,000
<p style="text-align: center;"> Planned \$ ---- Planned \$ ---- Remaining to Reprogram \$ </p>		

Long Range 06/07 Tasks

- **Agricultural Alternatives**
 - \$100,000
- **International Emissions (Inter-RPO)**
 - \$120,000
- **Biomass Utilization Assessment**
 - \$100,000
- **Smoke Mgt Techniques to Reduce Regional Haze Impacts on Class I Areas**
 - \$60,000
- **Feasibility Criteria/Technical Guidance for Fire Categorization Policy**
 - \$20,000
