

Development of work products

- FEJF*, AMC (IWG)*, Stakeholders, AofH, EDMS, RMC, CofHA, IOC*, TOC*, WRAP Board*
- FEJF proceeds through IOC/TOC to WRAP Board with definition/planning work products.
- Sequencing of FEJF work products within larger schedule important.
- Two-way feedback from other forums, work groups
- Federal agencies should also have a coordination effort among themselves

* EPA and FLMs are members of these groups. Their roles at this point should be primarily as participants and advisers to the process.

Development of work products

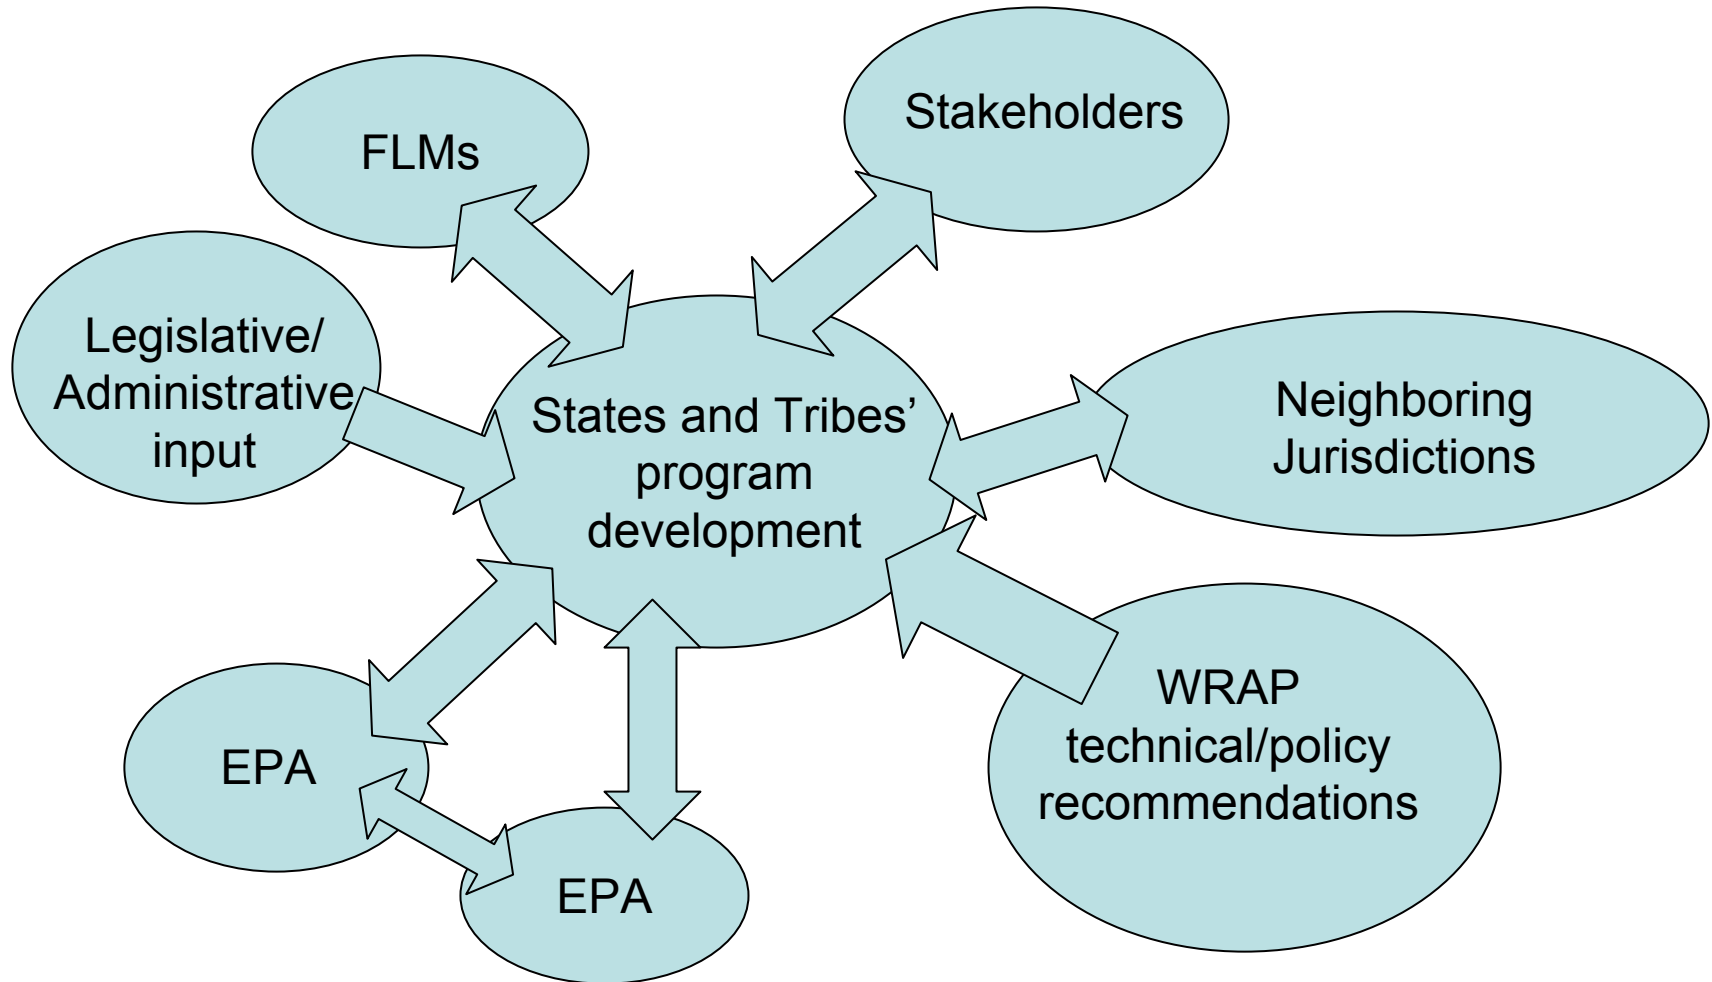

Development of work products

- Communication and Coordination Options
 - FEJF members liaison with other groups?
 - Incorporate other groups' review/feedback as part of normal process?
 - Staff facilitated conference call briefings to other groups?
 - Other?

SIP/TIP Program Development (using WRAP work products)

- States, Tribes, FLMs, EPA, local stakeholders, others
- Each state and tribe determines need for SMP and internally develops it according to its own policies. Coordination with local FLM jurisdictions, and c/c elements with neighboring states, tribes and FLMs are important elements.
- EPA role at this point is one of oversight and review of completed programs relative to RH requirements-what are the showstoppers?
- EPA inter-region coordination is important.
