

WRAP Regional Haze Progress Report & 2007-08 FEJF Projects/Budget

Fire Emissions Joint Forum Meeting

San Diego, CA

February 22-23, 2007

Progress Report from 10/06 FEJF Meeting

- Across all Forums and Workgroups, continuing assessment of current and planned projects to determine if needs of States are met toward:
 - Completing Regional Haze plans due 12/07; and
 - Supporting initial implementation in 2008.
 - Completed combination of Modeling Forum, Ambient Monitoring Forum, & Attribution of Haze WG activities into the Technical Analysis Forum (done 1/07)
 - For most Forums/WGs - move to less frequent in-person meetings (2/year), supplemented with conference calls
-

FEJF Pending Projects Budget

September 2006 Status Report – Project Name	2007	2008
Fire Tracking System	Funded, online mid-2007, part of TSS	106,000 placeholder
Future Smoke Mgmt Technical and Policy Workshop / May 2006 Carbon/Fire/Dust Workshop	21,000	
Section 308 Strategies for Fire	60,000 placeholder	

Fire Emissions Tracking System (FETS)

- **Current FETS subcontract to Air Sciences through CIRA TSS contract covers TSS operations as well as FETS development and operations through 2007.**
 - **For 2008, propose combining TSS/FETS operations into a line under the Technical Analysis Forum at \$165K - roughly 150K for CIRA and 15K for Air Sciences**
 - **Put \$106K placeholder from the FEJF budget went back into the larger WRAP budget.**
 - **Exactly how much is “needed” for 2008 FETS operations is not clear now, until there is an FETS to operate.**
-

Proposed Smoke Management Tech / Policy Workshop

- **Some \$ from this line had been used to pay Dave to prepare for/participate in the Sacramento May 2006 workshop.**
 - **Propose taking the remaining \$21K and added \$4K back to total \$25K (WGA limit on non-compete/sole source contracts)**
 - **Propose naming the new project FEJF TWIST (Technical WRAP-Up and Implementation Support Team)**
 - **Project purpose (for discussion later today):**
 - **Summarize fire technical issues in a memo from the FEJF to be completed Spring 2007 (addressing plume rise, 2018 modeling suites, etc.)**
 - **Prepare a briefing paper on "Fire EIs Lessons Learned" on behalf of FEJF for distribution in mid July 2007**
 - **Prepare for and participate in the mid-September 2007 "Regional Haze EIs - Lessons Learned" workshop.**
-

Proposed §308 Strategies for Fire Project

- **Propose project not needed, possibly need a smaller effort to summarize FEJF policy issues/tools for haze planning**
 - **To be discussed tomorrow morning**
 - **For the time being, moved this \$60K placeholder back into the larger WRAP budget.**
-

Proposed FEJF 2007-08 Projects

December 2006 Status Report - Pending Projects	2007	2008
FIRE		
FEJF Technical WRAP-Up and Implementation Support Team (TWIST)	25,000	
TECHNICAL ANALYSIS FORUM		
TSS and Fire Tracking - 2008		165,000

- **May want to consider small project to summarize “FEJF policy issues/tools for haze planning” – needs to be complete May 2007**
