**EPA Protocol**

Bob sent out a regional protocol, from Region IV, also FLM and EPA feedback on MANE-VU draft protocol, and tribal protocols.

- Get comments on these back to Bob.
- Some concerns are already apparent.
- Regions will generally deal with 308 states collectively within their respective RPOs, although there will be crossover issues for states abutting those in a neighboring RPOs.
- Current tribal protocol is designed for 309, so a separate 308 tribal protocol might be needed.
- These drafts should also go out to air managers.

Early questions to discuss with EPA:

- What are the litmus tests EPA will be applying to 308 SIPs/TIP?
- Will any of the 309 strategies serve as benchmarks for similar 308 plans?

**SIP/TIP Table of Contents**

Bob walked through revised Table of Contents, adapted from Ray Mohr's version.

**Plan is to spend the afternoon of March 8 on a revised version of this**

**March Meeting Agenda**

Concentrate on Chapters 6 and 7 and come away with Reasonable Progress
