

Implementation Work Group  
Meeting Agenda (8/25 revised draft)  
August 29-31, 2006  
Hotel Vintage Plaza  
Portland, Oregon

**Objective:** In support of Regional Haze SIP development, Tom Moore will provide the latest Regional Modeling results and some states will present visibility analyses. These assessments will serve as the basis for discussion about the technical and policy aspects of reasonable progress and inter-state consultation.

**August 29**

- 1:00-2:45      Introductions, updates on Regional Haze SIP development, all
1. What is the status of BART in your state?
  2. If applicable, what is the status of any state rules that may need to be adopted to implement the federal regional haze rule?
  3. How are stakeholder relations proceeding? What are the major issues?
  4. What other major air quality issues are confronting the state that may be relevant to regional haze?
  5. What progress have you made in digesting or incorporating WRAP data/products (emissions, attribution, etc.)?
- 2:45-3:00      Break
- 3:00 -4:00      SIP Template, Brian Finneran
- 4:00-5:00      WRAP modeling results, Tom Moore
