

Implementation Work Group
Meeting Agenda (11/30 draft)
December 6-8, 2006
La Fonda Hotel
Santa Fe, NM

Call 1-866-206-0240 and use access code 118012

Objective: In support of western Regional Haze SIP development, states will share information about their planning efforts (including a New Mexico case study and the Oregon SIP); learn from WRAP staff about newly released technical analyses, and; discuss reasonable progress goals and interstate impacts.

December 6

- 1:00-2:45 Introductions, updates on Regional Haze SIP development, all
1. What is the status of BART in your state?
 - a. When are engineering analyses for BART controls (and associated emission reductions) be completed?
 - b. When will final BART controls (and associated emission reductions) be approved by the state?
 2. If applicable, what is the status of any state rules that may need to be adopted to implement the federal regional haze rule?
 3. How are stakeholder relations proceeding? What are the major issues?
 4. How are your consultation processes with other states proceeding?
 5. What other major air quality issues are confronting the state that may be relevant to regional haze?
 6. What progress have you made in digesting or incorporating WRAP data/products (emissions, attribution, etc.)?
- 2:30-2:45 Break
- 2:45-4:00 Updates on Regional Haze SIP development (continued)
- 4:00-5:00 WRAP 2007 technical analyses, Tom Moore
- Schedule, conceptual plan
 - Technical recommendations on monitoring metrics
 - Data substitution method
 - WRAP RRF Projection Method

December 7

- 8:00-9:45 TSS update, Examples, Training – Joe Adlhoch
- Overview of Halloween TSS launch
 - Example Questions

- State level source category emissions summary plots
- 2018 projection/glide path gap calculation
- 2000-04 baseline to 2018 projection
- Tabular summary of species, deciview, emissions changes and monitored contributions
- Annual and seasonal graphs of NO_x, SO₂, PM, OC, EC, CM, FS
- Excel spreadsheet access – to develop fire ‘signature’

9:45-10:00 Break

10:00-11:30 NM Pilot Dust RH SIP, Gail Cooke, NM

11:30-1:00 Lunch (on your own)

1:00-3:00 Reasonable Progress, Lee Alter. Joe, Tom

- Analysis/outline
 - Class I area example
- Example Questions
 - TSS - Emissions Rollback
 - Oil/Gas, energy development assumptions

3:00-3:15 Break

3:15-5:00 Interstate Impacts, Joe & Tom

- WRAP analysis tools
- Weight-of-evidence
- Source apportionment
- Example Questions
 - Utah impacts on Black Canyon of the Gunnison
 - Nevada impacts on Zion
 - Impacts of Wasatch Front on WY and ID Class I areas
- Training needs, schedule

December 8

8:00-10:00 OR RH SIP template, Brian Finneran

- Overview, discussion

10:00-10:15 Break

10:15-12:00 Next Steps

- 2007 Milestone and Work Group schedule

12:00 adjourn
