

**Conference Call Notes
Implementation Work Group
February 15, 2007**

I. Preparations for April Meeting in San Diego.

1. Support for Lee Alter's methodology on Reasonable Progress Demonstrations and incorporating methodology into SIP text.

Now have AZ, NM, WY, CO, ID, NV- Need additional states to go for it Ready by April to report.

2. Update from States on where they are at on this work

3. Update from States and EPA on their willingness to share their work at the April Meeting

ND-Maybe

SD-Slightly possible

NV-Working toward it, will try

WY-Working toward it, will try

EPA/MT-Will have something

AK-no

ID-Will have Sawtooth and Craters of Moon

OR-Will have something-Brian working on Reasonable Progress methodology for OR

UT-Something, but not sure

HI-Not by April

CA-?

CO-OK

WA- No, will be engaged in RH SIP planning starting in July if funded by the Legislature

AZ-Try to do all 12 areas, but will be focused on 309

NM-something

II. Organizing the Long Term Control Strategy Review

1. Control measures already on the books

2. Uncontrollables

3. BART control measures

4. Future control measures under consideration

What other significant sources are apparent, but not addressed at this time, such as non-BART power plants, agricultural operations, etc..

Can we start the approach to this with project on "preliminary reasonable progress analysis" 2018 EI review, ERG contract? This EI update will include the "80%" most

likely source categories, and could be a good way to ID sources.

Can the WRAP help organize this review to create a more uniform approach?

Yes-See above

Do we want to include this topic in the April meeting?

We can-should include this as agenda item on March conference call

III. Consultation

1. Previous discussions and understandings on this topic.

Concurrence that consultation is underway, as long as forums continue to function- Need a paper trail of these discussions, (list of WRAP meetings, calls from archives,? Don't want to add process, or box in positions. EPA and states may still confer on specific issues.

2. Future EPA Meetings – Laurel Dygowski (EPA R8)

EPA wants about an hour on the agenda for the April meeting, with discussions on particular issues.

IV. Updates

1. Strike/underline of changes to the 2003 RH Rule – Carrie Bojda (AZ)

Review of document Corky sent out. Good reference that consolidates rule changes in one place.

2. Upcoming meetings, phone calls and projects – Don Arsell (WESTAR)

- More state participation needed on TAF
- “Preliminary Reasonable Progress Analysis” review of 2018 EIs with states
 - Questionnaires and summary tables to states Feb 23
