

Expanding the 2010 CalNex Field Study to the downwind WRAP region

Date/time: Tuesday June 9, 2009 (130 to 400 PM)

Location: NOAA David Skaggs Research Center, 325 Broadway, Boulder, CO

Participants (in-person)

Tom Ryerson	Chemical Sciences Division, ESRL, NOAA Boulder
David Parrish	Chemical Sciences Division, ESRL, NOAA Boulder
Ed Dunlea	Program Director, ACCP extramural grants program, NOAA Boulder
John Vimont	Research and Monitoring Branch Chief, Air Resources Division, NPS Lakewood
Bret Schichtel	Research Physical Scientist, Air Resources Division, NPS - CIRA, Fort Collins
Marc Pitchford	Air Resources Laboratory, NOAA Las Vegas & IMPROVE Steering Committee Chair
Tom Moore	Air Quality Program Manager, Western Governors' Association & Coordinator, Western Regional Air Partnership – CIRA, Fort Collins

Participants (by phone)

David Jones	WEPA Executive Director, Cortina Indian Rancheria & Co-Chair of WRAP Technical Oversight Committee
Jay Al-Saadi	Tropospheric Chemistry Program, Earth Science Division, NASA
Brad Pierce	Center for Satellite Applications and Research, Coop. Res. Prog., NESDIS, NOAA

Purpose:

- 1) Discuss interests and plans for conducting an “Geographically Expanded 2010 Field Study” and applying those data in the 2011-12 time frame – monitoring activities, data analysis and modeling, and publication of results; and
- 2) Determine time frames and next steps for Field Study planning.

Tuesday June 9th

130	Introductions & Agenda Review – purpose and goals for the meeting
145	Review current NOAA-CARB 2010 Field Study planning – NOAA and CARB staff
215	Needs for and potential WRAP contributions to an Expanded Study – Tom Moore and others
245	Discuss opportunities for NASA participation – NASA staff
300	Next Steps - all
